[we did this project](#)

clothespins

markers

buttons

glue - hot glue or tacky glue

How We Did It

You can use any sort of decor for these fun chip clips. We had some pretty buttons that worked great.

The kids used markers to decorate each one just the way they wanted. Next, they chose the perfect button to attach to the tops. We used hot glue, but tacky glue is best for a younger child.

They came out great and it was just what I needed to add to my pantry.
